👤 PROFILE

Technically sophisticated, competent, and innovative IT professional, with experience in web & hybrid mobile programming, business analysis, IT management, business intelligence, and integration of enterprise applications.

I am also a full-stack software engineer currently conducting React/Node.js and Vue.js development in day-to-day work while having multiple years of experience as freelancer offering services of crafting online stores on platforms as Shopify/Shopify Plus and BigCommerce.

My goal has been building elegant, professional-looking, and performant-focused solutions that support my enterprise and small business clients in continuing growth.
